JOHN DEERE CERTIFIED PRE-OWNED

John Deere Equipment Fluid Testing / Inspection / Certification

eel and Apply to Sample Jar

John Deere Tractors that are out of warranty, in dealer inventory, and less than 10 years old, have less than 5000 total hours, and have a working hour meter are eligible for PowerGard (Limited engine & powertrain coverage), only after they are certified. For Certified and Pre-Owned (CPO) Tractors, they must be in dealer inventory, under 3 years old, have less than 1500 total hours, and must be certified and APPROVED to get comprehensive (full machine) PowerGard Protection coverage.

John Deere Combines, Sprayers, Cotton harvesters that are out of warranty, in dealer inventory, less than 6 years old, have less than 1500 total engine hours, and have a working hour meter, are eligible for PowerGard (limited engine and powertrain coverage), only after they are certified. For Certified Pre-Owned combines (CPO), they must be in dealer inventory, under 2 years old, and have less than 1000 total engine hours, and must be certified to get comprehensive (full machine) PowerGard Protection coverage.

PowerGard requires MANDATORY engine oil scan, coolant scan and transmission/hydraulic scans.

Submit this Part A fluid testing form, along with your fluid samples to Bureau Veritas (FluidScan) in the return envelope found in your PowerGard test kit

Dealer/Equipment Information

PRODUCT ID NO. PIN:

1 0 6 1 5 S M L N G 1 6 2 9 4 3

MFWWD? Yes No (for Tractors) Meter Working? Yes No

Tractor Model #: 6155M

Dealer Name: United Ag And Turf Dealer #: 04-9398

Dealer Address: 6229 I-35 Waco, TX 76706

Phone: (254) 756-5467 Email: dustyn@unitedagandturf.com

Hours (actual) : 5988 (Must indicate total operating hour on current hour meter, plus and additional prior hours on any former hour meter prior to the installation of the current hour meter.)

Do the hours appear reasonable considering the overall condition? Yes No

If a Tractor, has it been used in past commercial applications? Yes No

Service/PIP History

(Make sure all PIP items are appropriately addressed and modifications are performed)

Major Engine Repairs: Yes No Type? _____ Date: _____ Hours: _____

Major Trans Repairs: Yes No Type? _____ Date: _____ Hours: _____

Outstanding PIP Work: Yes No If yes, describe action plan in "comments" section below

Comments: (For repairs plan on PIP items, Bureau Veritas recommendations or critical repair replace items etc)

The following information is MANDATORY for certification, and must be submitted with your fluid samples to Bureau Veritas (FluidScan) for testing

Engine Oil Scan

Date Sampled: 2/5/2024

Miles/Hours since Oil Change: N/A

Miles/Hours since new/overhaul: N/A

Oil Manufacturer/Brand: John Deere

Oil Grade: 15W-40

Component mfg/Model: 6.8 Liter

Coolant Scan

Date Sampled: 2/5/2024

Coolant additives: N/A

Transmission Oil Scan

Date Sampled: 2/5/2024

Trans Type: PowerGard Plus

Hydraulic Oil Scan

Date Sampled: 2/5/2024

Part B

INSPECTION /CERTIFICATION INSTRUCTIONS: Please check all major components on the following pages and indicate if each item is "OK" (working and normal for the tractors age, hours, and condition) or "R" needs repair.

JOHN DEERE

DATE
of

COMPONENT _____ OK/R COMMENTS REPAIR

COMPONENT _____ OK/R COMMENTS REPAIR

A. Engine, Cooling and Fuel Systems:

- Block, cyl. head, valve cover, oil pan and gaskets: OK
- Air intake, filter, tubes, hoses & clamps: OK
- Radiator, cap, water pump, hoses & tubes: OK
- Exhaust system pipes, muffler & turbo: OK
- Inj. pump, fuel lines, tank & fuel filter: OK
- Crankshaft, damper, and pulleys: OK
- Engine running test for power, leaks, unusual noises, smoke, missees, blowby, and compression: OK

B. Powertrain:

- Clutch, pedal & controls operation, slip check: OK
- PTO clutch & brake operation: OK
- Transmission & controls operation: OK
- Rear axles, housings, seals and bearings, final drives: OK
- Any leaks or noises? OK
- Differential lock operation: OK
- MFWD housing, seals, u-joints & operation: OK
- Oil, filters, breathers and screens: OK

C. Hydraulics System:

- Main pump, pump drive, and operation: OK
- Rockshaft, EH hitch, operation & cycle time: OK
- Draft sensing system and operation: OK
- SCV's, operation and cycle time: OK
- Any leaks or noises? OK
- Lines, hoses, and clamps condition: OK

D. Electrical Systems:

- Battery, cables and wiring harness: OK
- Starter switch, motor & neutral safety system: OK
- Lights, warning lights, & turn signals: OK
- Tachometer, gauges and indicator lights: OK

E. Steering & Brakes:

- Steering valve, motor, cylinders & hoses: OK
- Steering operation and free travel: OK
- Tie rods, drag link & steering arm: OK
- Front axle, pivot bushings, spindle bearings, wheel bearings and hubs: OK
- Brake valve and brake operation: OK

F. Operators Station:

- Seat condition & operation: OK
- Cab, glass, upholstery & moldings condition: OK
- Heater & A/C systems and operation: OK
- Door, latch, and hinges condition & operation: OK

G. Miscellaneous:

- Draw bar, 3 pt. mounts, links and couplers: OK
- Chassis, frame, weights and hardware: OK
- Steel metal & paint condition & appearance: OK
- Wheel & tire condition and appearance: OK

H. Safety Equipment:

- Oil fuel and coolant leaks: R
- All safety shields, covers, and shrouds: OK
- SMV, safety decals and warning devices: OK
- Steps, handrails, ladders and guards: OK
