Did you Drive/Operate							No, however the owner did to move it outside his garage, and everything appeared/sounded like it ran well.			
Is there any cosmetic or mechanical damage that would affect the value or operation.							Everything appeared good and intact.			
Are hours displayed correct, if NO add notes							No hours were displayed; I roughly estimate that there's around 80 hours on it. The owner had stated that this was his third summer using it and he had bought it new. He said it took around 45 minutes to mow his entire yard, and that he mows every Thursday.			
Do all functions perform as they should							Yes. Everything appeared and sounded like it performed correctly.			
Estimate for repairs to known Issues beyond set recon.							No repairs are needed that I noticed.			
Tire/Track Condition:Do the tires have any significant damage, wear, or cuts? (do they need replaced)							The tires appear to be a little worn, but in good condition.
