Please provide a brief description of the machine. Include information such as competitive trade offers, machine history, pricing details, etc.							Clean 6155M with cab suspension. He was power washing this machine when I pulled up. Has Good rubber all the way around as well as fenders on the front and the back. This tractor also has the harnessing and iso plug on this machine put on by Nick Marlow. No leaks that I seen at all. Has the 3rd function on the loader as well. Just wanting to trade up to a ivt tractor. All lights work as well.
